Building wealth with gold and silver

Online-Depot

„Best Price“ (focus-money award 2023)

Buy at lower average prices Fractional ownership of large precious metal bars (industrial bars) meeting the “Good Delivery Standard”.

Flexible

You buy precious metals whenever, however much and as often as you like. You are under no obligation to buy and there is no minimum term. You can sell at any time.

Ownership

You are the 100% owner of the purchased precious metals. The bars are assigned to you in the vault with a number (PSN – Personal Security Number). Through the subsequent assignment of a bar number, legal ownership is transferred to you. The PSN number is known to the supervising law firm.

Storage

Your precious metal bars are stored in external, insured high-security vaults and are strictly separated from Auvesta's assets.

Storage is provided by certified, world-leading valuables and security service providers (e.g. Brinks, Loomis, Prosegur, etc.). The LBMA bars generally never leave the vaults.

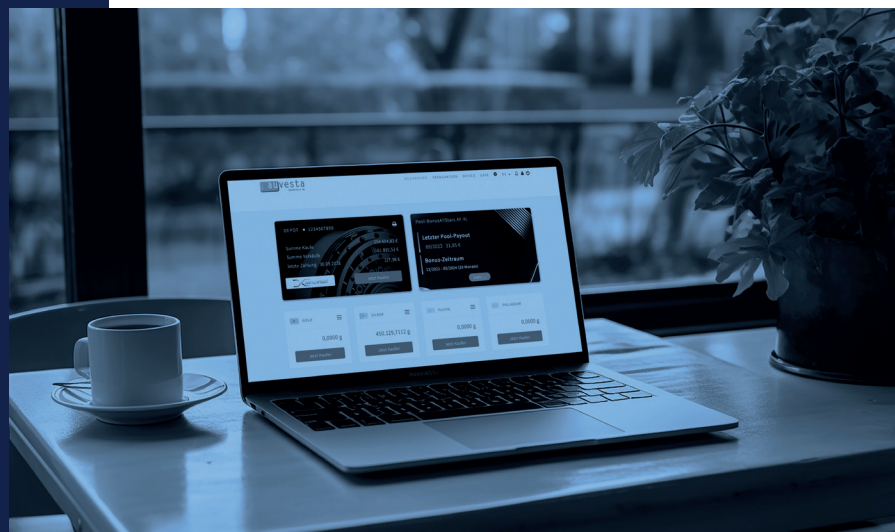

Bars from LBMA certified manufacturers

Buy physical gold, silver, platinum and palladium.

With every payment, you purchase fractions of large bars. This allows you to buy at more favourable prices.

Your benefits:

- Attractive purchase and storage terms.
- No purchase obligations.
- 100% transfer of ownership, guaranteed upon purchase.
- Security through external storage facilities.
- Buy silver more cheaply through storage in a duty-free warehouse.
- Ongoing, multi-stage verification of the stored inventory (daily balance sheet, external warehouse checks and warehouse lists provided by the vault operators.).

More precious metals with Switch Pilot

The **Auvesta Switch Pilot** offers you an automated way to grow your assets without additional investment *. Switch from gold to silver or vice versa, taking into account the so-called **gold-silver ratio**.

Benefit from price fluctuations (= volatility in precious metal prices) and, by switching between gold and silver in what is essentially a non-yielding asset, generate additional returns (= greater weighting in the original precious metal).

*Past performance is no guarantee of future results.

How does Switch Pilot work?

Make the most of the **gold-silver ratio**. This indicator shows the ratio between the price of gold and the price of silver.

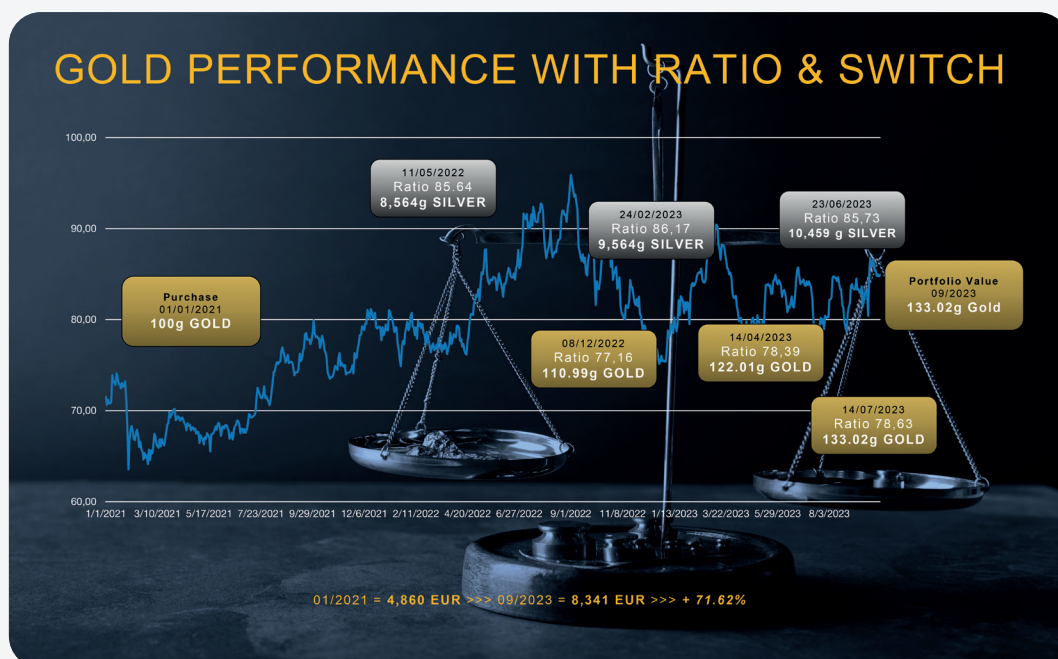

Select **2 switch points** online (gold to silver and silver to gold).

When the **switch points** are reached, the system automatically executes the switch of the precious metals.

The Switch Pilot automatically executes **these orders at a significantly reduced trading spread**.

Switch Pilot - Execution once daily from €2,000 to €100,000 (S-3, M-6, L-12)

Switch Pilot Plus - executed twice daily from €2,000 to €500,000 (XL-24/VIP)
